

EIGRP – Back to the Future

Objectives

Implement advanced EIGRP features to enhance operation in a small- to medium-sized business network.

Scenario

Many of these bulleted concepts were mentioned in the previous chapter's curriculum content and will be the focus of this chapter:

- Auto-summarization
- Load balancing
- Default routes
- Hold-down timers
- Authentication

With a partner, write 10 EIGRP review questions based on the previous chapter's curriculum content. Three of the questions must focus on the bulleted items above. Ideally, Multiple Choice, True/False, or Fill in the Blank question types will be designed. As you design your questions, make sure you record the curriculum section and page numbers of the supporting content in case you need to refer back for answer verification.

Save your work and then meet with another group, or the entire class, and quiz them using the questions you developed.

Resources

- Word processing software program
- Curriculum content from the previous chapter
